Student guidance for using the Midwifery Ongoing Record of Achievement (MORA)

This document is designed to record evidence that you meet the required proficiencies and outcomes for your midwifery programme of study, in line with the NMC standards for student supervision and assessment¹. At the point of midwifery registration, you are required to demonstrate that you meet both the requirements of the Nursing and Midwifery Council² and the European Directive³ recognition of professional qualifications. The Unicef UK Baby Friendly Initiative learning outcomes for students⁴ are also reflected throughout.

Practice assessment process

The assessment process follows the same pattern for both years of the programme

As you spend time in the maternity environment, you will generate evidence which will help you to demonstrate that you meet the required proficiencies. This evidence includes practice episode records, breastfeeding assessment records, feedback from those who supervise you and from those you provide care for and your own reflections. Each element is described in more detail in the following section.

It is important that you read the instructions for completing each section and seek support if you are not sure about the process of practice assessment.

¹ NMC (2018) Standards for student supervision and assessment https://www.nmc.org.uk/globalassets/sitedocuments/education-standards/student-supervision-assessment.pdf

² NMC (2019) Standards of proficiency for midwives

https://www.nmc.org.uk/globalassets/sitedocuments/standards/standards-of-proficiency-for-midwives.pdf

³Directive 2005/36/EC of the European Parliament and of the Council of 7 September 2005 on the recognition of professional qualifications

https://eur-lex.europa.eu/legal-content/EN/TXT/?uri=CELEX:32005L0036

⁴Unicef UK Baby Friendly Initiative University Standards (2019) https://www.unicef.org.uk/babyfriendly/wp-content/uploads/sites/2/2019/07/Guide-to-the-Unicef-UK-Baby-Friendly-Initiative-University-Standards.pdf

The European Directive recognition of professional qualifications requires student midwives during their clinical training to have provided care for a certain number of women and babies in specific categories:

- Advising of pregnant women, involving at least 100 antenatal examinations
- Supervising and caring for at least **40 pregnant women**
- Personally facilitating at least 40 births
- Supervising and caring for 40 women at risk* during pregnancy, labour or the postnatal period
- Supervising and caring for (including examination) at least 100 postnatal women and at least 100 healthy newborn infants

Practice episode records

Each section of the MORA includes practice episode records in which you can document the care that you have provided to women or their babies to provide evidence that you have the skills that contribute to the achievement of the proficiencies. Although you may be keen to begin recording practice episode records as soon as you can, it is advised that you space these throughout your student experience, as the way in which you approach undertaking the different types of care will change as your knowledge and skills expand over the course of the programme. As a guide, suggested completion is provided below. Please note that this is a guide only, intended to support your development.

	Year 1	Year 2
Antenatal examinations	45	55
Care for pregnant women and births personally facilitated	15	25
Postnatal examinations	45	55
Neonatal examinations	45	55

*The EU Directive refers to 'women at risk' and the NMC proficiencies use the term 'additional care for women with complications'. Identify the cases where you provide additional care for women with complications by highlighting the case number. This will enable you to provide evidence to meet the EU directive requirement for providing care for women at risk during pregnancy, labour or the postnatal period. You do not need to record these separately.

There are also other requirements which this document will enable you to evidence including:

- Active participation with breech births (may be simulated)
- Observation and care of the newborn requiring special care, including those born pre-term, post-term, underweight or ill
- Performance of episiotomy and initiation into suturing. The practice of suturing includes suturing of the wound following an episiotomy and a simple perineal laceration. This may be in a simulated situation if absolutely necessary.
- Care of women with pathological conditions in the fields of gynaecology and obstetrics.
- Initiation into care in the field of medicine and surgery. Initiation shall include theoretical instruction and clinical practice.

Unicef UK Baby Friendly Initiative

Completion of the MORA will enable you to evidence that you have the knowledge and skills to be able to practice in accordance with the Baby Friendly standards⁵. Within the neonatal care section there are breastfeeding assessment tools which should be completed when supporting women to breastfeed their babies. Please complete 10 assessments per year.

NMC Proficiencies

The practice episode records form part of the evidence to show that you have achieved the required skills within Domain 6 of the NMC Standards of proficiency for midwives. These have been presented in 5 sections to enable you to demonstrate achievement across the childbearing continuum for women and their newborn infants.

The sections of proficiencies are:

- Antenatal care
- Intrapartum care
- Postnatal care
- Neonatal care
- Promoting excellence

⁵Unicef UK Baby Friendly Initiative University Standards (2019) https://www.unicef.org.uk/babyfriendly/wp-content/uploads/sites/2/2019/07/Guide-to-the-Unicef-UK-Baby-Friendly-Initiative-University-Standards.pdf

Achievement of proficiencies⁶

The proficiencies can be verified as achieved in a range of placements as part of a continuous assessment process and should not be viewed as separate elements but reflect the continuum of care provided in partnership with women and their families. The NMC standards⁷ state that students in practice or work placed learning must be *supernumerary*, which means that they are supported to learn without being counted as part of the staffing required for safe and effective care in that setting. However, during each year of the programme, you are expected to engage at varying levels appropriate to your developing knowledge and understanding. As a nurse, you are expected to maintain the professional behaviour and standards required of NMC registrants and work within your scope of practice as a student midwife.

Year 1: Contribution

During your first year, you are expected to contribute to providing care for women, their babies and their families. This means that you will be working in partnership with midwives and other health and social care practitioners, under close supervision and direction, appropriate to your knowledge and skills. The expectations of academic knowledge and skill are specific to year 1 and are documented in the assessment section.

Year 2: Demonstrate Proficiency

During the final you are expected to provide care for women, their babies and their families in partnership with midwives and other health and social care practitioners, with appropriate supervision and direction as your knowledge and skill increases. The expectations of academic knowledge and skill are specific to year 2 and are documented in the assessment section.

It is not normally a requirement that all proficiencies are achieved during each year of the programme, however you must achieve all of the skills and linked proficiencies at the required level in Year 2. Please follow local programme specific guidelines.

⁶ NMC (2019) Standards of proficiency for midwives https://www.nmc.org.uk/globalassets/sitedocuments/standards/standards-of-proficiency-for-midwives.pdf

⁷ NMC (2019) Part 3: Standards for pre-registration midwifery programmes https://www.nmc.org.uk/globalassets/sitedocuments/standards/standards-for-pre-registration-midwifery-programmes.pdf

Use of evidence to support the achievement of proficiencies

This MORA is designed to enable you to document evidence that you have achieved the required skills documented within Domain 6 of the NMC (2019) Standards of proficiency for midwives and the requirements of the EU Directive on the recognition of professional qualifications.

In the proficiencies sections there are columns headed 'Reference to evidence' 'Student completion'. Against each proficiency, you should insert the method by which you can demonstrate that you have achieved the required outcome. For example, you could reference the practice episode records (PER) here, or you might have evidenced achievement in another way such as through discussion, demonstration, reflection or simulation. You may also have had experience of participating or contributing to care which enables you to demonstrate achievement of proficiency in a complementary placement area; if this is the case you could refer to these records by using the page number.

Antenatal proficiencies for midwives	Year 1 Able to contribute with decreasing supervision and direction	Reference to evidence	Year 2 Able to demonstrate proficiency with appropriate supervision	Reference to evidence
Continuity of care and carer	Practice supervisor signature and date	Student completion	Practice supervisor signature and date	Student completion
Relationship building				
A1 The student midwife is able to promote and provide continuity	y of care and carer in	the antenatal period. D	emonstrated by:	
A1.1 discussing with women, and their partners and families as appropriate, information on the available options for the place of birth, supporting the woman in her decision; and regularly reviewing this with the woman and with colleagues		Discussion, observation		
A1.2 ensuring safe continuity of care by identifying and communicating effectively with colleagues from the appropriate health and social care settings or agencies		PER 12, 13, 15, 19, 20, 24 Discussion		
A1.3 promptly arranging for the effective transfer of care for the woman, when there are changes in care needs		PER 12, 13, 16, 19		
A2 The student midwife demonstrates the ability to build kind, tr woman's needs, views, preferences and decisions, working in par				advocating for the
A2.1 providing evidence-based information on all aspects of health and well-being of the woman and newborn infant to enable informed decision-making by the woman, and partner and family as appropriate		PER 11, 14, 19, 21		
A2.2 managing the environment to ensure that it is welcoming for the woman and her partner/family to maximise safety, privacy, dignity and well-being		Discussion, observation		

In this example, the records of antenatal examinations enable you to provide evidence of achieving proficiencies A1.1, A1.2, A4.2, A4.4, A4.5, A4.7, A4.8 and proficiencies within A5 and A9.

Practice Supervisor feedback

Practice supervisors are registered health and social care practitioners who you will work closely with and who will verify the evidence within the practice episode records and document when you have demonstrated the skills required to achieve a proficiency. Practice supervisors are required to regularly provide written feedback on your progress and professional behaviour. This feedback will inform your ongoing development and contribute evidence for the holistic assessment.⁸

Feedback from women and their families

Within each section there are forms for those you provide care for to give you feedback. Practice Supervisors must approach women or their families when they feel that this is most appropriate. This feedback is not a compulsory requirement for assessment purposes; however, it is recommended and contributes an important aspect to the holistic assessment.

Reflections

Before you meet with your Practice Assessor for a review, you need to review and reflect on your learning and achievement in practice. As part of the preparation for the review, you also need to self-assess your progress using the holistic descriptors.

Practice Assessor reviews

Your practice assessor will meet with you to assess your progress at given points during the year. They will review your progress in completing the practice episode records and achievement of proficiencies and professional behaviour. Your conduct must always meet the expectations of professional behaviour; it is important that you understand the university processes if you fail to meet this requirement. A progression plan must be made if there are any concerns about your practice. Use the Assessment planner on p.14 to plan your reviews and summative holistic assessments in partnership with your Practice Assessor.

Summative holistic assessment

Your practice assessor will complete your final summative holistic assessment at the end of your final placement for the year. They will review your progress in completing the practice episode records and achievement of proficiencies. Please check your programme requirements for any guidance regarding the expectations of proficiency completion *unless* you are in your final year, in which case all of the records and proficiencies must be achieved. Your conduct must also meet the requirements for professional behaviour at every assessment.

⁸ NMC (2018) Standards for student supervision and assessment https://www.nmc.org.uk/globalassets/sitedocuments/education-standards/student-supervision-assessment.pdf

Other parts of the MORA

There are some other parts of the MORA which are not directly related to the assessment process but are designed to support your practice learning and provide evidence of meeting certain professional requirements.

About me

This part of the MORA is provided so that you can document information which may help those who support your practice learning to understand any requirements that you have. You can also record any information about your transferable skills and past experiences. This section is not compulsory and it is entirely up to you to decide if you want to record any information about yourself.

End of year summary

The end of year summary will be completed by your Academic Assessor to summarise your achievements during the year. It will document the evidence that you have collated to enable you and those who support your learning to have a snapshot of your progress.

Complementary placement records

You may attend complementary placements to enhance your learning, work with a wider range of health and social care professionals and to enable you to also meet the EU Directive requirements of:

 Care of women with pathological conditions in the fields of gynaecology and obstetrics

Use these pages to record your learning experiences and collate feedback from those you work with.

Record of meetings

These pages can be used by anyone who supports your practice learning and may include practice supervisors, practice assessors, academic link staff, academic assessors or the practice nominated person.

Record of practice hours

The NMC require midwifery programmes to meet the EU Directive requirements for practice learning time, which means that student midwives on a shortened programme for nurses must provide evidence of a minimum of 1,500 completed practice hours. You are required to confirm that each record contains true and accurate data, according to local policy.

Responsibilities for those completing the MORA

Student

It is your responsibility to be proactive in ensuring that your assessments are planned and to document your practice based learning. You must complete the reflection and self-assessment prior to meeting with your Practice Assessor and to reflect on the feedback given during each review. You are required to record your practice episode records in this document however it must not contain any woman/service user/carer identifiable information such as name, date of birth or address. The contents of your MORA must not be disclosed to any unauthorised person, photocopied or used outside the placement or university to ensure client confidentiality is maintained.

Practice Supervisor

The NMC requires all students on approved programmes to be supervised in practice by NMC registered nurses, midwives, nursing associates, and other registered health and social care professionals. The responsibilities of Practice Supervisors include the facilitation of safe and effective learning, role modelling professional behaviour and contributing to student assessment through regularly recording observations on the conduct, proficiency and achievement of the students they are supervising. Practice Supervisors must be supported to prepare for and reflect on their contribution to student learning and have an understanding of the proficiencies and programme outcomes⁹.

Practice Assessor

All students must have a nominated Practice Assessor for each year of the programme or series of placements. Practice Assessors are required to conduct assessments to confirm student achievement of proficiencies and programme outcomes for practice learning. Assessment decisions are informed by feedback from Practice Supervisors, direct observations, student self-reflection, and other resources such as feedback from women and/or their families. Practice Assessors undertake the initial meeting, reviews and final summative holistic assessment.

Academic Assessor

Students are required to have a nominated Academic Assessor for each part of their programme. Academic Assessors collate and confirm student achievement of proficiencies and programme outcomes in the academic environment for each part of the programme and make recommendations for progression in partnership with the Practice Assessor.

⁹ NMC (2018) Standards for student supervision and assessment https://www.nmc.org.uk/globalassets/sitedocuments/education-standards/student-supervision-assessment.pdf

Frequently asked questions/easy reference guide: Who can complete the MORA?

1 requeiting 8	-	asy reference guide:	,	-	
	Practice Supervisor (PS) (registered healthcare professional)	Practice Assessor (PA) (nominated and prepared for role)	Academic Assessor (AA) (nominated by the university, different for each part)	Non- registered healthcare worker e.g. nursery nurse, support worker	Client or family member
Can I undertake student orientation?	Yes	Yes	If appropriate but this is unlikely.	If it is appropriate to do so.	No
Can I complete the initial planning meeting with the student?	No	Yes. You must complete this section at the start of each year / part of the programme.	No	No	No
Can I record my observations regarding the student's achievement of a proficiency statement?	Yes. The role of the PS is to contribute to the student's record of achievement by periodically recording relevant observations on the conduct, proficiency and achievement of the students they are supervising. 10	No as this is the role of the PS. The role of the PA is to conduct objective evidence-based assessments to confirm student achievement of proficiencies, informed by feedback from PS. You cannot act as the PS and PA for the same student.	No, you cannot act as the AA and PS for the same student.	No	No
Can I contribute to the student's assessment and inform progression decisions?	Yes, this is a really important role of the PS. Please complete the PS feedback template.	Yes, please complete the record of meetings/ periodic observation page at the back of the document.	No, see above	Yes, please use the record of meetings page at the back of the document.	Yes, please complete the service user feedback form.
Should I write a progression plan if I am concerned about the student's performance?	No, if you have concerns, please record them in the feedback section and contact the PA and practice nominated person	Yes, in partnership with the AA	Yes, in partnership with the PA	No, if you have concerns please record them in the feedback section and contact the PA	No, please complete the service user feedback form and speak to the student's PS
Can I complete the PA reviews or final summative holistic assessment?	No	Yes. The role of the PA is to confirm student achievement by undertaking objective reviews and completing the summative holistic assessment. ¹⁰	No	No	No
Can I complete the end of year summary?	No	No	Yes, after reviewing the MORA during each assessment period	No	No

If you unsure about any aspect of the MORA, please seek guidance from the Practice Nominated Person or Programme Lead

Practice staff signature			

Assessment planner

During the programme you are required to have initial meetings, reviews and a holistic summative holistic assessment with your Practice Assessor. Your assessment plan needs to be discussed and agreed with your practice nominated person and the academic link person (this may be your personal tutor, Academic Assessor or another member of the university academic staff), according to local policy. Use the table below to plan when you will undertake your assessments.

	Initial meeting	Practice Assessor Review 1	Practice Assessor Review 2	Summative holistic assessment
Year 1 Dates for planned meetings				
Name of Practice Assessor				
Name of Academic Assessor			Contact details	
Year 2 Dates for planned meetings				
Name of Practice Assessor				
Name of Academic Assessor			Contact details	

Important note: You must demonstrate that you meet the professional behaviour criteria at each Practice Assessor review point and the holistic summative holistic assessment. If this has not been achieved, a progression plan must be written, and achieved by the next review. If at the second review the required professional standards have not been met, you will need to discuss the impact that this will have on your progression with your Academic Assessor

Document Signatories: Practice Assessors

A sample signature must be obtained for each Practice Assessor who signs this document Practice Assessors will be nominated by their employer and be appropriately prepared for the role

Name (please print)	Signature	Initials	Practice Area
May Brown	MJBrowa	MJB	Community Green team

Document Signatories: Practice Supervisors (Registered Midwives)

Practice Supervisors must receive ongoing support to prepare, reflect and develop for effective supervision and contribution to student learning and assessment. They must have an understanding of the proficiencies and programme outcomes they are supporting students to achieve.

Glossary of commonly used terms

Academic Assessor: This is the person nominated by your university to collate and confirm your achievement of proficiencies and overall assessment for each part of your programme. The Academic Assessor must be a Registered Midwife and must change at each stage of the programme. Their name and contact details should be completed in the assessment planner. Academic assessors cannot undertake the role of practice supervisor or practice assessor simultaneously for the same student.

Academic link: This is the person employed by an Approved Education Institution to support students on midwifery programmes. This could be a link lecturer, personal tutor or another member of the academic team. It may be the same person as your Academic Assessor.

Additional care: The care provided by midwives for childbearing women and infants with complications. Care includes first line management of complications and emergencies, and interprofessional working with medical, obstetric and neonatal services. The term 'additional care' encompasses the EU directive term 'at risk'.

Assessment planner: The assessment planner (on page 15) is designed to enable the planning of reviews and assessments across the programme between the student and Practice Assessor. The assessment plan needs to be discussed and agreed between the student, practice nominated person and academic link.

Evidence: There is reference to student evidence throughout the MORA. The term 'evidence' in this context refers to the documentation completed to verify that the NMC and programme outcomes have been met. Evidence includes practice episode records, Practice Supervisor feedback, feedback from women and their families, breastfeeding assessment records and student reflections which form part of the Practice Assessor reviews and summative holistic assessment.

Expectations of student professional behaviour and performance: The expectations of students at each part of the programme are indicated in the assessment section of this document. The descriptors represent the progression expected from student through to professional practitioner. The performance descriptors are based on nationally agreed higher education standards.

Holistic Performance Descriptors: These represent the levels of performance expected to meet the assessment criteria at each academic level. The descriptors describe the knowledge, skill and attitude expected across and between levels. Practice Assessors award a descriptor that most closely matches student performance. This descriptor may be converted into a grade at university level by the Academic Assessor, according to local programme requirements.

Practice Nominated Person: This is the person employed by the NHS Trust to support student midwives in clinical practice and to manage their clinical experience. This role can be undertaken by people with various job titles, which will vary. This may be the Clinical Placement Facilitator, Practice Education Facilitator, Practice Development Midwife, Student Co-ordinator, Practice Placement Manager or someone in a similar role.

Practice Assessor: This is a Registered Midwife who is nominated by the employer, having been appropriately prepared for the role. The Practice Assessor will complete the reviews and holistic summative holistic assessment. A student may have more than one nominated Practice Assessor over the course of the year or programme. Practice assessors cannot undertake the role of practice supervisor or academic assessor simultaneously for the same student.

Practice episode records: These records contribute to the evidence of achievement of the NMC proficiencies, in addition to demonstrating that the requirements of the EU directive are met. Practice Supervisors confirm these records.

Practice Supervisor: Registered Midwives (or other registered health and social care professionals) who supervise and support a student in practice. The Practice Supervisor will provide verbal and written feedback to the student. A Practice Supervisor must be a registered health or social care professional and have current knowledge and experience of the area in which they are providing support, supervision and feedback. Practice supervisors cannot undertake the role of practice assessor or academic assessor simultaneously for the same student. Records of progress from the Practice Supervisor will inform the Practice Assessor's holistic assessment of the student's performance.

Progression plan: A progression plan is required when there is a need to address the student's progression or performance. The Practice Assessor must inform the Practice Nominated Person and Academic Assessor when an action plan is required/generated.

Simulation: When used for learning and/or assessment, simulation is an artificial representation of a real world practice scenario that supports midwifery student development through experiential learning with the opportunity for repetition, feedback, evaluation and reflection. Effective simulation facilitates safety by enhancing knowledge, behaviours and skills. Simulation can be used to enable students to demonstrate some of the proficiencies which may be difficult to achieve in practice.

Unicef UK Baby Friendly Initiative: The Baby Friendly Initiative is designed to improve healthcare for babies, their mothers and families in the UK. As part of a wider global partnership between the World Health Organization (WHO) and Unicef, public services are enabled to better support families with feeding and developing close, loving parent-infant relationships, ensuring that all babies get the best possible start.

Universal care: The care that midwives provide for all childbearing women which includes education, information, health promotion, assessment, screening, care planning, the promotion of physiological processes and the prevention of complications.

Antenatal proficiencies for midwives	Year 1 Able to contribute with appropriate supervision and direction	Reference to evidence	Year 2 Able to demonstrate proficiency with appropriate supervision	Reference to evidence
Continuity of care and carer	Practice supervisor signature and date	Student completion	Practice supervisor signature and date	Student completion
Relationship building				
A1 The student midwife is able to promote and provide continuity of care	e and carer in the antena	tal period. Demonstrated	by:	
A1.1 discussing with women, and their partners and families as				
appropriate, information on the available options for the place of birth,				
supporting the woman in her decision; and regularly reviewing this with				
the woman and with colleagues				
A1.2 ensuring safe continuity of care by identifying and communicating				
effectively with colleagues from the appropriate health and social care				
settings or agencies				
A1.3 promptly arranging for the effective transfer of care for the woman,				
when there are changes in care needs		:hb	 fam:::::aaad.caad.caa	
A2 The student midwife demonstrates the ability to build kind, trusting,			tramilies advocating t	or the woman's needs,
views, preferences and decisions, working in partnership during the ante	natai period. Demonstrat	ea by:		
A2.1 providing evidence-based information on all aspects of health and well-being of the woman and newborn infant to enable informed				
decision-making by the woman, and partner and family as appropriate				
A2.2 managing the environment to ensure that it is welcoming for the				
woman and her partner/family to maximise safety, privacy, dignity and				
well-being				
A2.3 showing compassion and sensitivity when women or their				
partners/family members are emotionally vulnerable and/or distressed				
parameter, and a constant and analysis and an account				

Antenatal proficiencies for midwives	Year 1 Able to contribute with appropriate supervision and direction	Reference to evidence	Year 2 Able to demonstrate proficiency with appropriate supervision	Reference to evidence	
Relationship building	Practice supervisor signature and date	Student completion	Practice supervisor signature and date	Student completion	
A2 The student midwife demonstrates the ability to build kind, trusting, respectful relationships with women, partners and families advocating for the woman's needs, views, preferences and decisions, working in partnership during the antenatal period. Demonstrated by:					
A2.4 recognising and responding to any adjustments that may be required to support women with a physical disability	ai periou. Demonstrateu	by.			
A2.5 recognising and responding to any adjustments required to support women with a learning disability					
A2.6 initiating sensitive, individualised evidence-informed conversations with women that explore how they feel about sexuality, pregnancy and childbirth, infant feeding, relationship building and parenting whilst valuing different cultural contexts and traditions					
A2.7 promoting and encouraging the woman's confidence in her own body, health and well-being, and in her ability to give birth, feed and build a loving relationship with her baby					
A2.8 including and valuing the woman's self-assessment of her health and well-being, recognising her ability and confidence to self-care and her expertise of any pre-existing conditions					
A2.9 promoting and protecting the physical, psychological, social, cultural, and spiritual safety of all women and recognising and responding when this is being compromised					

Antenatal proficiencies for midwives	Year 1 Able to contribute with appropriate supervision and direction	Reference to evidence	Year 2 Able to demonstrate proficiency with appropriate supervision	Reference to evidence
Communication	Practice supervisor signature and date	Student completion	Practice supervisor signature and date	Student completion
A3 The student midwife is able to communicate and share information		nilies with respect, kind	ness and compassion, taki	ng into account their
individual needs, views, preferences and decisions in the antenatal per	iod. Demonstrated by:	T		T
A3.1 actively listening, recognising and responding appropriately to cues, using prompts and positive reinforcement				
A3.2 using appropriate non-verbal communication techniques including				
touch, eye contact and respect of personal space				
A3.3 using clear language and appropriate open and closed				
questioning, responding to women's questions, concerns, views, preferences and decisions checking for understanding				
A3.4 identifying when any alternative communication techniques are				
required, making adjustments to facilitate use of personal				
communication aids or access to services such as translation and interpretation				
A3.5 providing timely and accurate information to women and their				
partners/families when there are complications or when additional care needs are identified				
A3.6 maintaining effective and kind communication techniques with				
women, partners and families in challenging and emergency situations, including breaking bad news				

Antenatal proficiencies for midwives	Year 1 Able to contribute with appropriate supervision and direction	Reference to evidence	Year 2 Able to demonstrate proficiency with appropriate supervision	Reference to evidence
Universal care	Practice supervisor signature and date	Student completion	Practice supervisor signature and date	Student completion
A4 The student midwife demonstrates the skills of effective assessment		and evaluation to prov		rtnership with women
during the antenatal period to anticipate and prevent complications.		·	•	•
A4.1 accurately recognising the signs and symptoms of pregnancy				
A4.2 accurately assessing, recording and responding to maternal mental health and well-being				
A4.3 providing evidence based information which supports women and their partners/family to make individualised choices and decisions about screening and diagnostic tests				
A4.4 measuring and recording the woman's vital signs using manual and technological aids where appropriate, accurately recording findings and implementing appropriate responses and decisions				
A4.5 undertaking venepuncture and appropriate blood sampling, interpreting the results of routine tests				
A4.6 accurately recording weight and height including calculation of Body Mass Index (BMI)				

Antenatal proficiencies for midwives	Year 1 Able to <i>contribute</i> with appropriate supervision and direction	Reference to evidence	Year 2 Able to demonstrate proficiency with appropriate supervision	Reference to evidence
Universal care	Practice supervisor signature and date	Student completion	Practice supervisor signature and date	Student completion
A4 The student midwife demonstrates the skills of effective assessment	, planning, implementation	and evaluation to provi		ership with women
during the antenatal period to anticipate and prevent complications. De	emonstrated by:		I	
A4.7 appropriate examination of the woman's abdomen and palpation				
of her uterus, explaining and documenting findings				
A4.8 auscultation of the fetal heart, using a Pinard stethoscope and				
technical devices as appropriate, including cardiotocograph (CTG),				
interpretation and documentation of the findings accurately including fetal heart patterns				
A4.9 appropriately discussing the findings of all tests, observations and				
assessments with women and their partner/family				
A4.10 recognising normal vaginal loss and deviations from normal,				
recognition of spontaneous rupture of membranes				
A4.11 recognising and responding to oedema, varicosities, and signs of thromboembolism				

Antenatal proficiencies for midwives	Year 1 Able to <i>contribute</i> with appropriate supervision and direction	Reference to evidence	Year 2 Able to demonstrate proficiency with appropriate supervision	Reference to evidence
Universal care (cont.)	Practice supervisor signature and date	Student completion	Practice supervisor signature and date	Student completion
A4 The student midwife demonstrates the skills of effective assessment		nd evaluation to provid		'
during the antenatal period to anticipate and prevent complications. De	emonstrated by:			
A4.12 s upporting the woman when nausea and vomiting occur, recognising deviations from normal physiological processes and providing care that optimises the woman's nutrition and hydration				
A4.13 assessing, planning and providing care that optimises the woman's bladder and bowel health and function				
A4.14 applying the principles of infection prevention and control, following local and national policies and protocols, sharing information with women and their partner/family as appropriate				
A4.15 developing and providing parent education and preparation for birth and parenthood that is tailored to the context, needs, views, and preferences of individuals and groups				
A4.16 recognising the signs that indicate the onset of labour

Public health	Practice supervisor	Student completion	Practice supervisor	Student
	signature and date		signature and date	completion
A5 The student midwife demonstrates the ability to conduct person-cent				health, health
promotion and health protection across the life course, depending on re	levance and context during th	e antenatal period. Den	nonstrated by:	
A5.1 discussing sensitive issues relating to sexual and reproductive				
health: including pre-conception, contraception, unintended pregnancy,				
abortion and sexually transmitted infections				
A5.2 sharing up to date information regarding food safety and nutrition				
A5.3 providing appropriate weight management and exercise information				
A5.4 sensitively exploring the issues of smoking, alcohol intake and substance use as appropriate				
A5.5 sharing information regarding the importance of immunisation in pregnancy for both the woman and her unborn baby				
A5.6 discussing sources of valid health information including the potential impact of the overuse of social media				

Antenatal proficiencies for midwives	Year 1 Able to contribute with appropriate supervision and direction	Reference to evidence	Year 2 Able to demonstrate proficiency with appropriate supervision	Reference to evidence
Public health (cont.)	Practice supervisor	Student completion	Practice supervisor	Student completion
Medicines administration	signature and date		signature and date	
A5 The student midwife demonstrates the ability to conduct person-cent promotion and health protection across the life course, depending on re		•		health, health
A5.7 sharing information about the importance of human milk and breastfeeding on short and long term physical and emotional health and well-being for both the woman and her baby			,	
A5.8 identifying resources relevant to the needs of women and support and enable women to access these as needed				
A6 The student midwife demonstrates the ability to work in partnership medicines in the antenatal period. Demonstrated by:	with the woman to assess an	d provide care and supp	ort that ensures the safe	administration of
A6.1 knowing the various procedural routes under which medicines can be prescribed, supplied, dispensed and administered; and the laws, policies, regulations and guidance that underpin them				
A6.2 carrying out initial and continued assessments of women and their ability to self-administer their own medications				
A6.3 understanding and applying the principles of safe remote prescribing and directions to administer medicines, including safe storage, transportation and disposal of medicinal products				

Antenatal proficiencies for midwives	Year 1 Able to <i>contribute</i> with appropriate supervision and direction	Reference to evidence	Year 2 Able to demonstrate proficiency with appropriate supervision	Reference to evidence
Medicines administration (cont.)	Practice supervisor signature and date	Student completion	Practice supervisor signature and date	Student completion
A6 The student midwife demonstrates the ability to work in partnership medicines in the antenatal period. Demonstrated by:	with the woman to assess an	d provide care and supp	oort that ensures the safe	administration of
A6.4 performing accurate drug calculations for a range of medications				
A6.5 safely supplying and administering medicines listed as midwives exemptions in the Human Medicines Regulations Schedule 17 (and any subsequent legislation), utilising the most up to date list				
A6.6 exercising professional accountability in the safe administration of m to include:	nedicines to women according	to local policy and mana	ging equipment appropri	ately. Range of routes
intramuscular				
• subcutaneous				
A6.7 recognising and responding to adverse or abnormal reactions to medications for the woman and understanding how this may have an impact on the fetus				

Antenatal proficiencies for midwives	Year 1 Able to <i>contribute</i> with appropriate supervision and direction	Reference to evidence	Year 2 Able to demonstrate proficiency with appropriate supervision	Reference to evidence
Record keeping	Practice supervisor	Student completion	Practice supervisor	Student
Interdisciplinary collaboration	signature and date		signature and date	completion
A7 The student midwife demonstrates the skills required to record, keep an Demonstrated by:	d share information effective	ely and securely in the a	antenatal period.	
A7.1 clearly documenting care provision, changing care needs, referrals and the woman's understanding, input, and decisions about her care				
A7.2 presenting and sharing verbal, digital and written reports with individuals and/or groups, respecting confidentiality appropriately				
A7.3 storing all information securely according to local and national policy				
A8 The student midwife can work effectively with interdisciplinary and multicomplications and additional care needs acting as the woman's advocate surplementated by:				
A8.1 communicating complex information regarding a woman's care needs in a clear, concise manner				
A8.2 communicating effectively with interdisciplinary and multiagency teams and colleagues in challenging and emergency situations , using appropriate tools				

Antenatal proficiencies for midwives	Year 1 Able to <i>contribute</i> with appropriate supervision and direction	Reference to evidence	Year 2 Able to demonstrate proficiency with appropriate supervision	Reference to evidence

Intrapartum proficiencies for midwives	Year 1 Able to <i>contribute</i> with appropriate supervision and direction	Reference to evidence	Year 2 Able to demonstrate proficiency with appropriate supervision	Reference to evidence
Continuity of carer	Practice supervisor	Student completion	Practice supervisor	Student completion
Relationship building	signature and date		signature and date	
IP1 The student midwife is able to promote and provide continuity of care a Demonstrated by:	and carer in the intrapar	tum period.		
IP1.1 consistently planning, implementing and evaluating care that considers the needs of the woman and newborn infant together; encouraging and promoting close and loving relationships between babies, their mothers and families				
IP1.2 ensuring safe continuity of care by identifying and communicating				
effectively with colleagues from the appropriate health and social care				
settings or agencies when there are changes in care needs and arranging				
for the effective transfer of care for the woman if required IP2 The student midwife demonstrates the ability to build kind, respectful i	valationahina with wans	n noutrous and fourilies	duasatina for the wor	on's poods views
preferences and decisions, working in partnership during the intrapartum p			advocating for the worn	all's fieeus, views,
IP2.1 managing the environment to ensure that it is welcoming for the woman and her partner/family to maximise safety, privacy, dignity and well-being and optimise the physiological processes of labour and birth, creating the conditions needed for a gentle birth avoiding or minimising trauma				

Intrapartum proficiencies for midwives	Year 1 Able to contribute with appropriate supervision and direction	Reference to evidence	Year 2 Able to demonstrate proficiency with appropriate supervision	Reference to evidence				
Relationship building (cont.)	Practice supervisor signature and date	Student completion	Practice supervisor signature and date	Student completion				
IP2 The student midwife demonstrates the ability to build kind, respectful preferences and decisions, working in partnership during the intrapartum	IP2 The student midwife demonstrates the ability to build kind, respectful relationships with women, partners and families advocating for the woman's needs, views,							
IP2.2 ensuring that women are fully involved in planning their care and providing the appropriate evidence-based information to facilitate informed decision-making, taking into account different cultural contexts and traditions	,							
IP2.3 showing compassion and sensitivity when women their partners/family members are emotionally vulnerable and/or distressed								
IP2.4 knowing how to recognise and respond to any adjustments required to support women with a physical disability								
IP2.5 knowing how to recognise and respond to any adjustments required to support women with a learning disability								
IP2.6 promoting the woman's confidence in her own body and in her ability to give birth, providing ongoing support and feedback								
IP2.7 including and valuing the woman's self-assessment of her health and well-being, recognising her ability and confidence to self-care and her expertise of any pre-existing conditions								
IP2. 8 promoting and protecting the physical, psychological, social, cultural, and spiritual safety of all women, recognising and responding when this is being compromised								

Intrapartum proficiencies for midwives	Year 1 Able to <i>contribute</i> with appropriate supervision and direction	Reference to evidence	Year 2 Able to demonstrate proficiency with appropriate supervision	Reference to evidence
Communication	Practice supervisor signature and date	Student completion	Practice supervisor signature and date	Student completion
IP3 The student midwife is able to communicate and share information wi individual needs, views, preferences and decisions in the intrapartum peri		es with respect, kindnes	ss and compassion takin	g into account their
IP3.1 actively listening, recognising and responding to appropriately to cues	San Demonstrated by			
IP3.2 using appropriate non-verbal communication techniques including touch, eye contact and respect of personal space				
IP3.3 using clear language and appropriate open and closed questioning, responding to women's questions, concerns, views, preferences and decisions checking for understanding				
IP3.4 the ability to identify when alternative communication techniques are required, making adjustments to facilitate use of personal communication aids or access to services such as translation and interpretation				
IP3.5 providing timely and accurate information to women and their partners/families when there are complications or when additional care needs are identified, including breaking bad news				
IP3.6 maintaining effective and kind communication techniques with women, partners and families in challenging and emergency situations				

Intrapartum proficiencies for midwives	Year 1 Able to <i>contribute</i> with appropriate supervision and direction	Reference to evidence	Year 2 Able to demonstrate proficiency with appropriate supervision	Reference to evidence
Universal care during labour and birth	Practice supervisor signature and date	Student completion	Practice supervisor signature and date	Student completion
IP4 The student midwife demonstrates the skills of effective assessment, properties to optimise normal physiological processes and to anticipate and prevent	<u> </u>		universal care during t	he intrapartum period
IP4.1 providing safe, continuous, one-to-one care for the woman in labour and at birth				
IP4.2 accurately recognising the onset of labour and assessing the effectiveness of contractions and progress in labour				
IP4.3 accurately assessing and responding to the woman's behaviour, appearance psychological and emotional needs				
IP4.4 providing care and support when the woman experiences pain, responding to her need for pain management using evidence-based techniques including comfort measures, non-pharmacological and pharmacological methods				
IP4.5 discussing the potential impact of practices and interventions in labour and at birth on the establishment of breastfeeding				
IP4.6 recognising and responding to the need for mobility, encouraging changes in maternal position to achieve optimal positions in labour and birth to facilitate normal physiological processes				

Intrapartum proficiencies for midwives	Year 1 Able to <i>contribute</i> with appropriate supervision and direction	Reference to evidence	Year 2 Able to demonstrate proficiency with appropriate supervision	Reference to evidence
Universal care during labour and birth (cont.)	Practice supervisor signature and date	Student completion	Practice supervisor signature and date	Student completion
IP4 The student midwife demonstrates the skills of effective assessment, plate to optimise normal physiological processes and to anticipate and prevent co	•	•	universal care during the	e intrapartum period
IP4.7 providing care that optimises the woman's hygiene needs and skin	mpiications. Demonstrate	d by.		
integrity				
IP4.8 measuring and recording the woman's vital signs using manual and				
technological aids where appropriate, accurately recording findings and implementing appropriate responses and decisions				
IP4.9 appropriate examination of the woman's abdomen and palpation of				
her uterus, explaining and documenting findings				
IP4.10 accurately assessing fetal well-being by auscultation of the fetal				
heart using a Pinard stethoscope and technical devices as appropriate,				
including cardiotocograph (CTG) interpretation, responding appropriately and documenting findings with reference to fetal heart patterns				
IP4.11 undertaking a vaginal examination appropriately with the woman's				
consent, recognising and responding to the findings				
IP4.12 appropriately discussing the findings of all tests, observations and assessments with women and their partner/family				

Intrapartum proficiencies for midwives	Year 1 Able to <i>contribute</i> with appropriate supervision and direction	Reference to evidence	Year 2 Able to demonstrate proficiency with appropriate supervision	Reference to evidence
Universal care during labour and birth (cont.)	Practice supervisor signature and date	Student completion	Practice supervisor signature and date	Student completion
IP4 The student midwife demonstrates the skills of effective assessment, properties to optimise normal physiological processes and to anticipate and prevent			universal care during the	e intrapartum period
IP4.13 recognising normal vaginal loss and deviations from normal, recognition of spontaneous rupture of membranes				
IP4.14 assessing, planning and providing care that optimises the woman's nutrition and hydration including effective fluid balance management, supporting the woman when nausea and vomiting occur				
IP4.15 assessing, planning and providing care that optimises the woman's bladder and bowel health and function				
IP4.16 responding to the woman's preferences to guide her safely as she gives birth, using evidence-based approaches appropriately to avoid and minimise trauma				
IP4.17 safely manage a breech birth				
IP4.18 assessing when an episiotomy is required and responding appropriately				

Intrapartum proficiencies for midwives	Year 1 Able to <i>contribute</i> with appropriate supervision and direction	Reference to evidence	Year 2 Able to demonstrate proficiency with appropriate supervision	Reference to evidence
Universal care during labour and birth (cont.)	Practice supervisor signature and date	Student completion	Practice supervisor signature and date	Student completion
IP4 The student midwife demonstrates the skills of effective assessment, I to optimise normal physiological processes and to anticipate and prevent	-	•	de universal care during t	he intrapartum period
IP4.19 recognising and responding to the position of the umbilical cord during birth appropriately, managing the cord after birth according to the best available evidence and the woman's preferences				
IP4.20 recognising and responding to deviations from normal physiological processes, including the need to expedite birth, referring to interdisciplinary colleagues as appropriate				
IP4.21 assessing the progress of the third stage of labour, using evidence informed techniques to safely and appropriately support the woman to birth the placenta and membranes, followed by an examination of the placenta and membranes to assess completeness and health				
IP4.22 examining the woman's perineum, labia, vagina, cervix and anus for birth injuries, responding and referring appropriately				
IP4.23 undertaking perineal repair including episiotomy and 1 st and 2 nd degree tears				

Intrapartum proficiencies for midwives	Year 1 Able to <i>contribute</i> with appropriate supervision and direction	Reference to evidence	Year 2 Able to demonstrate proficiency with appropriate supervision	Reference to evidence
Universal care during labour and birth (cont.)	Practice supervisor signature and date	Student completion	Practice supervisor	Student completion
Universal care in the immediate postnatal period	signature and date		signature and date	
IP4 The student midwife demonstrates the skills of effective assessment, plate to optimise normal physiological processes and to anticipate and prevent co			universal care during t	he intrapartum period
IP4.24 undertaking appropriate cannulation, venepuncture and blood sampling, interpreting the results of standard tests				
IP4.25 applying the principles of infection prevention and control, following local and national policies and protocols, sharing information with women and their partner/family as appropriate				
IP5 The student midwife is able to demonstrate skills of effective assessment postnatal period to optimise normal physiological processes and to anticipa			ovide universal care dur	ing the immediate
IP5.1 conducting an immediate assessment of the newborn infant at and after birth to assess initial adaptation to extra-uterine life including appearance, heart rate, behaviour, response, neurological tone, reflexes and respirations identifying the need for neonatal life support if respiration is not established.				
IP5.2 enabling immediate, uninterrupted, and ongoing safe skin-to-skin contact between the mother and the newborn infant, and positive time for the partner and family to be with the newborn infant and each other, preventing unnecessary interruptions				

Intrapartum proficiencies for midwives	Year 1 Able to contribute with appropriate supervision and direction	Reference to evidence	Year 2 Able to demonstrate proficiency with appropriate supervision	Reference to evidence
Universal care in the immediate postnatal period (cont.) Medicines administration	Practice supervisor signature and date	Student completion	Practice supervisor signature and date	Student completion
IP5 The student midwife is able to demonstrate skills of effective assessmen		· · · · · · · · · · · · · · · · · · ·		luring the immediate
postnatal period to optimise normal physiological processes and to anticipa	•	tions. Demonstrated by	<u> </u>	
IP5.3 observing, assessing, and promoting the woman's immediate response				
to the newborn infant (and partner's response as appropriate), and their				
ability to keep the newborn infant close and be responsive to the cues for				
love, comfort and feeding (reciprocity)				
IP5.4 assessing the infant's ability to respond to cues for food, love and				
comfort and the ability to suck, swallow and breathe at the first breastfeed				
or bottle feed				
IP6 The student midwife demonstrates the ability to work in partnership wi	th the woman to assess a	and provide care and su	pport that ensures the	safe administration of
medicines in the intrapartum period. Demonstrated by:		•		
IP6.1 knowing the various procedural routes under which medicines can be				
prescribed, supplied, dispensed and administered; and the laws, policies,				
regulations and guidance that underpin them				
IP6.2 carrying out initial and continued assessments of women and their				
ability to self-administer their own medications				
asincy to sen duminister their own medications				

Intrapartum proficiencies for midwives	Year 1 Able to contribute with appropriate supervision and direction	Reference to evidence	Year 2 Able to demonstrate proficiency with appropriate supervision	Reference to evidence
Medicines administration (cont.)	Practice supervisor signature and date	Student completion	Practice supervisor signature and date	Student completion
IP6 The student midwife demonstrates the ability to work in partnership w	ith the woman to assess a	nd provide care and sup	port that ensures the s	afe administration of
medicines in the intrapartum period. Demonstrated by:				
IP6.3 understanding and applying the principles of safe remote prescribing				
and directions to administer medicines, including safe storage,				
transportation and disposal of medicinal products				
IP6.4 performing accurate drug calculations for a range of medications				
IP6.5 safely supplying and administering medicines listed as midwives				
exemptions in the Human Medicines Regulations Schedule 17 (and any				
subsequent legislation), utilising the most up to date list				
IP6.6 exercising professional accountability in the safe administration of med	dicines to women, accordin	g to local policy, manag	ging equipment appropri	ately.
Routes to include:				
intramuscular				
• intravenous				
per vaginum				
other (please stipulate)				

Intrapartum proficiencies for midwives	Year 1 Able to <i>contribute</i> with appropriate supervision and direction	Reference to evidence	Year 2 Able to demonstrate proficiency with appropriate supervision	Reference to evidence
Medicines administration (cont.)	Practice supervisor signature and date	Student completion	Practice supervisor signature and date	Student completion
IP6 The student midwife demonstrates the ability to work in partnership with	th the woman to assess an	d provide care and supp	oort that ensures the sa	fe administration of
medicines in the intrapartum period. Demonstrated by:				
IP6.7 undertaking accurate checks, including the transcription and titration,				
of any direction to supply and administer a medicinal product				
IP6.8 recognising the potential impact of medicines on the unborn baby and breastmilk and the establishment of breastfeeding, providing information and support to the woman referring to interdisciplinary colleagues as appropriate				
IP6.9 knowing how to recognise and respond to adverse or abnormal reactions to medications for the woman and understanding how this may have an impact on the unborn baby				
IP6.10 safely administering medicines in an emergency including the transfusion of blood and blood products according to local policy				
IP6.11 safely manage intravenous infusions using infusion pumps and devices according to local policy				

Intrapartum proficiencies for midwives	Year 1 Able to <i>contribute</i> with appropriate supervision and direction	Reference to evidence	Year 2 Able to demonstrate proficiency with appropriate supervision	Reference to evidence
Record keeping	Practice supervisor	Student completion	Practice supervisor	Student completion
Interdisciplinary working	signature and date		signature and date	
IP7 The student midwife demonstrates the ability to record, keep and share information effectively and securely in the intrapartum period. Demonstrated by:				
IP7.1 clearly documenting care provision, changing care needs, referrals and				
the woman's understanding, input, and decisions about her care				
IP7.2 presenting and sharing verbal, digital and written reports with individuals and/or groups, respecting confidentiality appropriately				
IP7.3 accurately completing specialist proformas such as emergency scribe sheets				
IP8 The student midwife can communicate effectively with interdisciplinary a views, preferences, and decisions in the intrapartum period. Demonstrated by	-	colleagues; acting as th	e woman's advocate s	supporting her needs,
IP8.1 communicating complex information regarding a woman's or her				
newborn infant care needs in a clear, concise manner				
IP8.2 communicating effectively with interdisciplinary and multiagency teams and colleagues in challenging and emergency situations				

Intrapartum proficiencies for midwives	Year 1 Able to contribute with appropriate supervision and direction	Reference to evidence	Year 2 Able to demonstrate proficiency with appropriate supervision	Reference to evidence
Interdisciplinary working (cont.)	Practice supervisor signature and date	Student completion	Practice supervisor signature and date	Student completion
IP8 The student midwife can communicate effectively with interdisciplinary views, preferences, and decisions in the intrapartum period. Demonstrated		and colleagues; acting a	s the woman's advocate	e supporting her needs,
IP8.3 informing and updating interdisciplinary and multiagency colleagues about the social, physical or psychological well-being of the woman or her newborn infant escalating any concerns				
IP8.4 collaborating effectively to support women who have had traumatic experiences including birth trauma and its sequelae including post-traumatic stress disorder, pre-term birth, perinatal loss and bereavement				
IP8.5 remaining calm, demonstrating effective de-escalation skills considering and taking account of the views and decisions made by others				
IP8.6 appropriately challenging the views and decisions made by others that compromise women's needs, views or preferences, escalating concerns regarding the behaviour or vulnerability of colleagues				
IP8.7 recognising and responding to signs of all forms of abuse and exploitation, and need for safeguarding				

Intrapartum proficiencies for midwives	Year 1 Able to contribute with appropriate supervision and direction	Reference to evidence	Year 2 Able to demonstrate proficiency with appropriate supervision	Reference to evidence
Additional care	Practice supervisor signature and date	Student completion	Practice supervisor signature and date	Student completion
IP9 The student midwife is able to implement first-line interventions and en and/or fetus, including when signs of deviation from physiological processes Demonstrated by:				
IP9.1 promptly calling for assistance and escalation as necessary, implementing immediate emergency actions for the woman and newborn infant until help arrives				
IP9.2 conducting a speculum examination and high and low vaginal swabs to test for signs of infection and preterm labour				
IP9.3 undertaking amniotomy and applying a fetal scalp electrode				
IP9.4 responding to meconium-stained liquor, signs of infection, sepsis and blood loss including haemorrhage				
IP9.5 safely managing shoulder dystocia				
IP9.6 conducting manual removal of the placenta				
IP9.7 monitoring deterioration using evidence-based early warning tools				
IP9.8 undertaking delegated tests for woman, fetus and newborn infant				

Intrapartum proficiencies for midwives	Year 1 Able to contribute with appropriate supervision and direction	Reference to evidence	Year 2 Able to demonstrate proficiency with appropriate supervision	Reference to evidence
Additional care (cont.)	Practice supervisor signature and date	Student completion	Practice supervisor signature and date	Student completion
IP9 The student midwife is able to implement first-line interventions and en and/or fetus, including when signs of deviation from physiological processes Demonstrated by:				
IP9.9 organising a safe environment, immediate referral, and appropriate support if acute mental illness, violence or abuse is identified				
IP9.10 providing care for women who have experienced female genital mutilation				
IP9.11 providing care for women and newborn infants before, during, and after medical interventions such as epidural analgesia, fetal blood sampling, instrumental births, caesarean section and medical and surgical interventions to manage haemorrhage, collaborating with colleagues as appropriate				
IP9.12 obtaining cord blood samples and interpreting the results

Postnatal proficiencies for midwives	Year 1 Able to contribute with appropriate supervision and direction	Reference to evidence	Year 2 Able to demonstrate proficiency with appropriate supervision	Reference to evidence
Continuity of care and carer	Practice supervisor	Student completion	Practice supervisor	Student completion
Relationship building	signature and date		signature and date	
P1 The student midwife is able to promote and provide continuity of care	and carer in the postnat	al period. Demonstrate	d by:	
P1.1 consistently planning, implementing and evaluating care that considers the needs of the woman and newborn infant together				
P1.2 arranging for the effective transfer of care for the woman if required and when midwifery care is complete				
P2 The student midwife demonstrates the ability to build kind, respectful preferences and decisions, working in partnership during the postnatal per	•	en, partners and familie	es advocating for the wor	nan's needs, views,
P2.1 providing evidence-based information on all aspects of health and well-being of the woman and newborn infant to enable informed decision-making by the woman, and partner and family as appropriate	,			
P2.2 providing a welcoming environment for the woman, partner, and family				
P2.3 managing the environment to ensure that the safety, privacy, dignity and well-being of the woman and her partner/family are maximised				
P2.4 showing compassion and sensitivity when women or their partners/family members are emotionally vulnerable and/or distressed				

Postnatal proficiencies for midwives	Year 1 Able to contribute with appropriate supervision and direction	Reference to evidence	Year 2 Able to demonstrate proficiency with appropriate supervision	Reference to evidence
Relationship building (cont.)	Practice supervisor signature and date	Student completion	Practice supervisor signature and date	Student completion
P2 The student midwife demonstrates the ability to build kind, respecting preferences and decisions, working in partnership during the postnatal			ies advocating for the wo	oman's needs, views,
P2.5 recognising and responding to any adjustments required to support women with a physical disability				
P2.6 recognising and responding to any adjustments required to support women with a learning disability				
P2.7 initiating sensitive, individualised conversations with women that explore how they feel about infant feeding, relationship building and parenting whilst valuing different cultural contexts and traditions				
P2.8 promoting the woman's confidence in her own body, health and well-being, and in her ability to nurture, feed, love, respond to and build a loving relationship with her baby				
P2.9 including and valuing the woman's self-assessment of her health and well-being, recognising her ability and confidence to self-care and care for her newborn including her expertise of any pre-existing conditions				
P2.10 promoting and protecting the physical, psychological, cultural, and spiritual safety of all women and recognising and responding when this is being compromised				

Postnatal proficiencies for midwives	Year 1 Able to contribute with appropriate supervision and direction	Reference to evidence	Year 2 Able to demonstrate proficiency with appropriate supervision	Reference to evidence
Communication	Practice supervisor signature and date	Student completion	Practice supervisor signature and date	Student completion
P3 The student midwife is able to communicate and share information		ilies with respect, kindr	. •	ng into account their
individual needs, views, preferences and decisions in the postnatal peri		•	·	
P3.1 actively listening, recognising and responding appropriately to				
cues and using appropriate non-verbal communication techniques				
including touch, eye contact and respect of personal space				
P3.2 providing opportunities for the woman, and partner as				
appropriate, to discuss the birth and responding to any questions they				
may have				
P3.3 identifying when alternative communication techniques are				
required, making adjustments to facilitate use of personal				
communication aids or access to services such as translation and				
interpretation				
P3.4 providing timely and accurate information to women and their				
partners/families when there are complications or when additional				
care needs are identified, including breaking bad news				
P3.5 maintaining effective and kind communication techniques with				
women, partners and families in challenging and emergency situations				
P3.6 providing information about and promoting access to community-based facilities and resources as needed

Public health	signature and date		signature and date	
P5 The student midwife demonstrates the ability to work in partnershi infant feeding. Demonstrated by:	p with the woman and her p	artner/family to assess	and provide care and sup	oport for all aspects of
P5.5 supporting women to maximise breastmilk production and				
breastfeeding when they wish to combine this with formula milk,				
supporting them to feed responsively and as safely as possible.				
P5.6 supporting women and their partners who are separated from				
their babies due to maternal physical or mental illness to maximise				
breastfeeding (if appropriate) and facilitate responsive feeding and				
secure attachment				
P6 The student midwife demonstrates the ability to conduct person-ce		men, their partners and	d families to support pub	lic health, health
promotion and health protection during the postnatal period. Demons	trated by:	T.	T	
P6.1 discussing sensitive issues relating to sexual and reproductive				
health: including contraception and sexually transmitted infections				
P6.2 sensitively exploring the issues of smoking, alcohol intake and				
substance use as appropriate				
P6.3 discussing attachment relationships and very early childhood				
development and the impact on the woman's own and the infant's health and emotional wellbeing				

Postnatal proficiencies for midwives	Year 1 Able to <i>contribute</i> with appropriate supervision and direction	Reference to evidence	Year 2 Able to demonstrate proficiency with appropriate supervision	Reference to evidence
Public health (cont.)	Practice supervisor signature and date	Student completion	Practice supervisor signature and date	Student completion
P6 The student midwife demonstrates the ability to conduct person-cer		men, their partners and	d families to support pub	lic health, health
promotion and health protection during the postnatal period. Demonstrated by:				
P6.4 appropriately sharing evidence-based information with all women and partners on how to minimise the risks of sudden infant death				
syndrome				
P6.5 sharing evidence-based information regarding immunisation				
P6.6 discussing sources of valid health information including the potential impact of the overuse of social media and the potential for addiction				
P6.7 sharing information about the importance of human milk and breastfeeding on short and long term health and well-being outcomes of the woman and her baby				
P6.8 sharing information with women and families about national and local information networks that are available to support women in the continuation of breastfeeding				
P6.9 identifying resources relevant to the needs of women and support and enable them to access these as needed				
P6.10 engage women, partners, and families in understanding and applying principles of infection control and antimicrobial stewardship

Interdisciplinary working (cont.) Additional care	Practice supervisor signature and date	Student completion	Practice supervisor signature and date	Student completion
P9 The student midwife can communicate effectively with interdisciplinary and multiagency teams and colleagues; acting as the woman's advocate supporting her needs, views, preferences, and decisions in the postnatal period. Demonstrated by:				
P9.6 appropriately challenging the views and decisions made by others that compromise women's needs, views or preferences, escalating concerns regarding the behaviour or vulnerability of colleagues	,			
P9.7 recognising and responding to signs of all forms of abuse and exploitation, and the subsequent need for safeguarding				
P10 The student midwife is able to implement first-line interventions a the postnatal period. Demonstrated by:	nd emergency managemen	t when additional care n	eeds or complications oc	cur for the woman in
P10.1 recognising when women, children and families are at risk, organising a safe environment, immediate referral and appropriate support if acute mental illness, violence or abuse is identified				
P10.2 promptly calling for assistance and escalation using appropriate tools and implement first line interventions and/or emergency management				
P10.3 recognising signs of infection, sepsis and blood loss including haemorrhage, escalating appropriately, monitoring and responding to signs of deterioration				

Postnatal proficiencies for midwives	Year 1 Able to <i>contribute</i> with appropriate supervision and direction	Reference to evidence	Year 2 Able to demonstrate proficiency with appropriate supervision	Reference to evidence
Additional care (cont.)	Practice supervisor signature and date	Student completion	Practice supervisor signature and date	Student completion
P10 The student midwife is able to implement first-line intervention the postnatal period. Demonstrated by:		nent when additional care		occur for the woman in
P10.4 recognising and responding to oedema, varicosities, and signs of thromboembolism				
P10.5 monitoring and managing fluid balance				
P10.6 undertaking delegated tests for woman as appropriate				
P10.7 understanding and implementing the principles of safe and supportive postnatal care to women who have experienced genital tract trauma (perineal, labial, vaginal, cervical, anal trauma including female genital mutilation)				
P10.8 providing midwifery care for women after assisted and caesarean births				
P10.9 providing support and care for women with pre-existing conditions				
P10.10 understanding and implementing the principles of safe and supportive postnatal care to women who are experiencing urinary or faecal incontinence				

Postnatal proficiencies for midwives	Year 1 Able to <i>contribute</i> with appropriate supervision and direction	Reference to evidence	Year 2 Able to demonstrate proficiency with appropriate supervision	Reference to evidence
Additional care (cont.)	Practice supervisor signature and date	Student completion	Practice supervisor signature and date	Student completion
P10 The student midwife is able to implement first-line interventions and emergency management when additional care needs or complications occur for the woman in the postnatal period. Demonstrated by:				
P10.11 supporting women and their partner/family where separation from their baby occurs as a result of physical and mental maternal illness, facilitating care which maximises the time the woman and her partner spend with their baby in order to build positive attachment behaviours				
P10.12 providing support to women/families with a newborn infant (s) in the neonatal unit, facilitating them to be partners in care and build a close and loving relationship, optimising skin-to-skin/kangaroo care, breastfeeding and/or use of donor milk where appropriate/possible				
P10.13 caring for women and families undergoing surrogacy or adoption				
P10.14 working in partnership to provide compassionate, respectful, empathetic and dignified care and follow up for women and/or families experiencing perinatal loss or newborn infant death				
P10.15 supporting the bereaved woman with lactation suppression and/or donating her breastmilk if wished				

Postnatal proficiencies for midwives	Year 1 Able to <i>contribute</i> with appropriate supervision and direction	Reference to evidence	Year 2 Able to demonstrate proficiency with appropriate supervision	Reference to evidence
Additional care (cont.)	Practice supervisor signature and date	Student completion	Practice supervisor signature and date	Student completion
P10 The student midwife is able to implement first-line interver the postnatal period. Demonstrated by:	ntions and emergency manag	ement when additional ca	are needs or complications	occur for the woman in
P10.16 providing culturally appropriate, compassionate, respectful, empathetic and dignified midwifery palliative or end of life care and/or following maternal death, including the needs of partners and families				
P10.17 ensuring that the partner/parents/family spend as much private time as they wish with a woman or newborn infant who is at the end of life or who has died				
P10.18 arranging the provision of appropriate pastoral and spiritual care according to the cultural/faith needs and requirements of the woman and her partner/family				
P10.19 providing care and support required by parents who have more than one baby and experience both loss and survival at the same time, recognising the psychological challenge of dealing with bereavement while also adapting to parenthood				
P10.20 providing clear information and support regarding any possible post-mortem examinations, registration of death and options for funeral arrangements/memorial service				

Neonatal care

Notes for completion of neonatal practice episode records

The NMC (2019) Standards of proficiency for midwives¹¹ require that student midwives are able to conduct ongoing assessments of the health and well-being of the newborn infant (proficiency 6.59 recorded in N1.2) and the full systematic physical examination of the newborn infant in line with local and national evidence-based protocols (proficiency 6.59.2 recorded in N1.1).

The practice episode records for the **ongoing assessment of the newborn infant** identify the main elements of the baby check, as documented in the Perinatal Institute for Maternal and Child Health postnatal notes for baby.¹²

Please follow local policy to include any additional elements of assessment as required.

The practice episode records for the **full systematic physical examination** are designed to enable you to document any significant features of the assessment, and to provide verification that you have carried out a full systematic physical examination in line with local and national protocols, under the supervision of a registered practitioner qualified to complete the examination. You can also record each examination in the neonatal assessment practice episode records and make reference to this in the first column of the systematic physical examination record (see example).

Please refer to local policy and programme requirements which will indicate when you should start to undertake these examinations.

Year 1 Reflective journal/notes/additional evidence Use these pages to record your reflections in practice, notes about things you have learned or need to remember or any additional evidence to support your progression and achievement.

ear 2 Reflective journal/notes/additional evidence lse these pages to record your reflections in practice, notes about things you have learned or need to emember or any additional evidence to support your progression and achievement.	
smortisch of any additional ovidence to support your progression and demovement.	

Assessment

Year 1
Expectations of student professional behaviour and performance

Professional value	es
Commitment	In accordance with organisational and university policies, the student embodies and promotes the level of professionalism expected of a registrant in relation to punctuality, personal presentation and attitude.
Care	The student has made a consistent effort to engage in their learning in order to contribute to high quality, evidence-based, woman-centred maternity care.
Competence	The student has recognised and worked within the limitations of their own knowledge, skills and professional boundaries. The student has demonstrated the ability to listen, seek clarification and carry out instructions safely in order to contribute to positive health outcomes for women and the best start in life for babies.
Communication	The student has demonstrated that they can communicate clearly and consistently with colleagues, women and their families. The student has worked effectively within the multi-disciplinary team with the intent of building professional caring relationships. The student avoids any form of discriminatory language or behaviour
Courage	The student has demonstrated openness, trustworthiness and integrity, ensuring the woman is the focus of care.
Compassion	The student is proactive in providing holistic, responsive and compassionate midwifery care ensuring that dignity and respect are always maintained.

	credit level descriptors
(adapted from SEEC C	Credit Descriptors for Higher Education 2016)
Operational context	The student is able to operate in known contexts which may be unpredictable, requiring selection and application from a range of often standard techniques and information sources.
Autonomy and responsibility for actions	The student acts with appropriate supervision or direction within agreed guidelines, taking responsibility for accessing support and accepting accountability for determining and achieving personal outcomes.
Knowledge and understanding	The student is developing a systematic understanding of the knowledge base and its interrelationship with other fields. Demonstrates current understanding of some specialist areas in depth.
Ethical awareness and application	The student demonstrates an awareness of ethical issues and is able to discuss these in relation to personal beliefs and values. The student is aware of their personal responsibility and practices in accordance with The Code.
Personal evaluation and development	The student takes responsibility for own learning and development using reflection and feedback to analyse own capabilities, appraises alternatives and plans and implements actions.
Interpersonal and communication skills	Uses interpersonal and communication skills to clarify tasks and identify and rectify issues in a range of contexts. The student is effective in professional and interpersonal communication in a range of situations.

Year 1 Initial meeting

This should be completed by the Practice Assessor, ideally during the first placement week of the year or part of the programme.
Name of Practice Assessor
Student: Please comment on your learning needs in relation to the proficiencies you are required to complete during this part of your programme.
Practice Assessor: Please briefly document the points raised during this meeting, particularly
in relation to the evidence you will expect to review at the first review.
Please review and discuss the professional conduct criteria that the student is required to achieve for this part of the programme and explain that this must be met by the first review.
Planned date for Practice Assessor review 1:

Practice Assessor Review 1
Student reflection (to be completed prior to meeting with Practice Assessor)
Review the feedback that you have had from Practice Supervisors and women that you have cared for.
What do you do well?
Which aspects of your practice do you need to develop further?
Reflect on one of the proficiencies that you have achieved but found difficult or challenging. Reflecting on what happened can help you to develop your practice and prepare to manage a similar situation in a different way.
Which proficiency are you reflecting on?
Describe what happened:
What were you thinking and feeling at the time?
What did you do well?
What went less well?
If you were in a similar situation again, what would you do differently?
Refer to the holistic assessment descriptors (on page 190) and consider which descriptor most closely describes your practice.
Which descriptor most closely matches your practice?
Use this space to add your reflection following feedback from your Practice Assessor
Student signature: Date:

Midwifery Ongoing Record of Achievement **Practice Assessor Review 1** To be completed by the Practice Assessor with the student Please review the records completed by the student's Practice Supervisors. What does the student consistently do well? Does the student appear to have acted on the areas highlighted for development? If a progression plan has been written since the previous meeting, has this now been completed? Yes / No* / Not applicable *Please contact the Academic Assessor for advice. The outcome of this review must be recorded as NOT ACHIEVED. Skills: please review the student's progress of completion of the proficiencies and practice episode records Comments: Knowledge: ascertain the student's knowledge base Ask the student to discuss one case from their practice episode records to confirm their knowledge base and application of knowledge through discussion. Does the student demonstrate the expected knowledge at this point in their programme? Yes / No* *Please complete a progression plan and contact the Academic Assessor. The outcome of this review must be recorded as NOT ACHIEVED. Attitude: review feedback on professional behaviour Please review the records from the student's Practice Supervisors. Has the student maintained the expected professional values? Yes / No* *Please complete a progression plan and contact the Academic Assessor. The outcome of this review must be recorded as NOT ACHIEVED. Please review the student's reflection and provide constructive feedback to support the student's development: Holistic Assessment: Please refer to the holistic descriptor on page 190 and identify which description most closely matches the student's performance. **Descriptor awarded:** I confirm that we have reviewed the available evidence and discussed current achievement and progress. Year 2
Expectations of student professional behaviour and performance

Professional value	s
Commitment	In accordance with organisational and university policies, the student embodies and promotes the level of professionalism expected of a registrant in relation to punctuality, personal presentation and attitude.
Care	The student has made a consistent effort to engage in their learning in order to contribute to high quality, evidence-based, woman-centred maternity care.
Competence	The student has recognised and worked within the limitations of their own knowledge, skills and professional boundaries. The student has demonstrated the ability to listen, seek clarification and carry out instructions safely in order to contribute to positive health outcomes for women and the best start in life for babies.
Communication	The student has demonstrated that they can communicate clearly and consistently with colleagues, women and their families. The student has worked effectively within the multi-disciplinary team with the intent of building professional caring relationships. The student avoids any form of discriminatory language or behaviour
Courage	The student has demonstrated openness, trustworthiness and integrity, ensuring the woman is the focus of care.
Compassion	The student is proactive in providing holistic, responsive and compassionate midwifery care ensuring that dignity and respect are always maintained.
	credit level descriptors Credit Descriptors for Higher Education 2016)
Operational context	The student is able to operate in complex and often unpredictable contexts, requiring selection and application from a wide range of advanced techniques and information sources.
Autonomy and responsibility for actions	The student acts with initiative in decision-making and accessing support within professional guidelines, accepting full accountability for outcomes.
Knowledge and understanding	The student has a deep and systematic understanding and understands the interrelationship with other relevant disciplines. The student demonstrates an understanding of current contemporary arguments and can formulate a critical response.
Ethical awareness and application	The student incorporates a critical ethical dimension to their practice, working proactively with others to formulate solutions to ethical dilemmas. The student is aware of their personal responsibility and practices in accordance with The Code.
Personal evaluation and development	The student is proactive in their learning and development using reflection to analyse self and actions.
Interpersonal and communication skills	The student identifies, evaluates and maintains capabilities and qualities to support effective communication in a range of complex and specialised contexts.

Year 2 Initial meeting

This should be completed by the Practice Assessor, ideally during the first placement week of the year or part of the programme.
Name of Practice Assessor
Ct. don't Discourse at an accordance and in relation to the most increase and
Student: Please comment on your learning needs in relation to the proficiencies you are required to complete during this part of your programme.
Practice Assessor: Please briefly document the points raised during this meeting, particularly in relation to the evidence you will expect to review at the first review.
Please review and discuss the professional conduct criteria that the student is required
to achieve for this part of the programme and explain that this must be met by the first review.

Practice Assessor Review 1
Student reflection (to be completed prior to meeting with Practice Assessor)
Review the feedback that you have had from Practice Supervisors and women that you have cared for.
What do you do well?
Which aspects of your practice do you need to develop further?
Reflect on one of the proficiencies that you have achieved but found difficult or challenging. Reflecting on
what happened can help you to develop your practice and prepare to manage a similar situation in a different way.
Which proficiency are you reflecting on? Describe what happened:
What were you thinking and feeling at the time?
What did you do well?
What went less well?
If you were in a similar situation again, what would you do differently?
Refer to the holistic assessment descriptors (on page 207) and consider which descriptor most closely describes your practice.
Which descriptor most closely matches your practice?
Use this space to add your reflection following feedback from your Practice Assessor at the first review
Student signature: Date:

Midwifery Ongoing Record of Achievement **Practice Assessor Review 1** To be completed by the Practice Assessor with the student Please review the records completed by the student's Practice Supervisors. What does the student consistently do well? Does the student appear to have acted on the areas highlighted for development? If a progression plan has been written since the previous meeting, has this now been completed? Yes / No* / Not applicable *Please contact the Academic Assessor for advice. The outcome of this review must be recorded as NOT ACHIEVED. Skills: please review the student's progress of completion of the proficiencies and practice episode records Comments: Knowledge: ascertain the student's knowledge base Ask the student to discuss one case from their practice episode records to confirm their knowledge base and application of knowledge through discussion. Does the student demonstrate the expected knowledge at this point in their programme? Yes / No* *Please complete a progression plan and contact the Academic Assessor. The outcome of this review must be recorded as NOT ACHIEVED. Attitude: review feedback on professional behaviour Please review the records from the student's Practice Supervisors. Has the student maintained the expected professional values? Yes / No* *Please complete a progression plan and contact the Academic Assessor. The outcome of this review must be recorded as NOT ACHIEVED. Please review the student's reflection and provide constructive feedback to support the student's development: Holistic Assessment: Please refer to the holistic descriptor on page 207 and identify which description most closely matches the student's performance. **Descriptor awarded:** I confirm that we have reviewed the available evidence and discussed current achievement and progress. Outcome of Practice Assessor Review 1: ACHIEVED / NOT ACHIEVED* *Please complete a progression plan and contact the Academic Assessor

Yes / No* Please complete a progression plan and contact the Academic Assessor. Knowledge: ascertain the student's knowledge base Ask the student to discuss one case from their practice episode records to confirm their knowledge base and application of knowledge through discussion. Does the student demonstrate the expected knowledge at the summative holistic assessment point for progression to the NMC register? Yes / No* *Please complete a progression plan and contact the Academic Assessor. The outcome of this review must be recorded as NOT ACHIEVED. Attitude: review feedback on professional behaviour Please review the records from the student's Practice Supervisors. Has the student maintained the expected professional values? Yes / No* *Please complete a progression plan and contact the Academic Assessor. The outcome of this review must be recorded as NOT ACHIEVED. Please review the student's reflection and provide constructive feedback to support the student's development from student to midwifery registrant: Holistic Assessment: Please refer to the holistic descriptor on the following page and identify which description most closely matches the student's performance. **Descriptor awarded:** I confirm that we have reviewed the available evidence and discussed current achievement and progress. Outcome of Summative Holistic Assessment: ACHIEVED / NOT ACHIEVED*

The student has an approach that demonstrates an outstanding ability to critically analyse, contribute to professional debate and discusses new questions. The student consistently shows outstanding insights into the application of theory to professional discussions. The student demonstrates a deep and systematic knowledge and understanding of the theories, evidence, and policies that underpin their practice. The student has an approach that demonstrates an outstanding ability to critically analyse, contribute to professional debate and challenge others appropriately. The student consistently shows outstanding insights into the application of theory to practice, even in complex or unpredictable situations. The student identifies and discusses new questions and connections, contributing effectively to professional discussions. The student consistently demonstrates an outstanding level of self-direction and motivation to seek and develop new knowledge. The student actively seeks to share their knowledge with others and motivates them to enhance their own knowledge and understanding. The student always uses their initiative appropriately and is highly aware of the impact of their actions on self and others. The student is a highly reflective practitioner who actively seeks and responds to feedback in order to enhance their performance.	The student's behaviour meets the professional conduct criteria required of a registrant and high professional standards are demonstrated and consistently maintained. Safe, sensitive, woman focused care is consistently provided to a high standard. The student demonstrates in-depth knowledge and understanding of the theories, evidence, and policies that relate to their practice. The student has an approach that demonstrates the ability to critically analyse, engage in professional debate and challenge others appropriately. The student demonstrates insights into the application of theory to practice, even in complex or unpredictable situations. The student identifies new questions and connections and engages in professional discussions. The student demonstrates a good level of self-direction and motivation to seek and develop new knowledge. The student shares their knowledge with others and motivates them to enhance their own knowledge and understanding. The student always uses their initiative appropriately and is aware of the impact of their actions on self and others. The student engages well with reflection and actively seeks and responds to feedback in order to enhance their performance. The student demonstrates leadership qualities which contribute to effective team working. The student is able to negotiate conflict in order to improve effective team working.	The student's behaviour meets the professional conduct criteria required of a registrant and professional standards are demonstrated and consistently maintained. Safe, sensitive, woman focused care is always provided. The student demonstrates good knowledge and understanding of the theories, evidence, and policies that relate to their practice. The student has an approach that demonstrates the ability to critically analyse, debate and challenge others appropriately. The student demonstrates insights into the application of theory to practice, even in complex or unpredictable situations. The student can recognise that the current knowledge base is subject to new questions and connections and can engage in professional discussions. The student demonstrates self-direction and motivation to seek and develop new knowledge. The student uses their initiative appropriately and is aware of the impact of their actions on self and others. The student engages with reflection and seeks and responds to feedback in order to enhance their performance. The student demonstrates emerging leadership qualities which contribute to effective team working. The student is able to negotiate conflict in order to improve effective team working. The student is able to effectively teach, coach and support junior members of the team.	Unsatisfactory The student demonstrates some elements of unprofessional behaviour that may compromise the provision of safe, sensitive, woman focused care. The student has a limited knowledge and understanding of the key concepts, research evidence, policies which limits their ability to practise effectively. The student demonstrates a limited ability to be analytical and does not engage in professional debate and discussion appropriately. The student is unable to apply theory to practice or utilise their knowledge in professional discussions appropriately The student does not demonstrate self-direction or an independent attitude to their own learning and development. The student shows a limited ability to use their initiative appropriately in known or complex situations. The student may not seek feedback or respond inappropriately when it is given. The student demonstrates limited engagement in reflection and insight into how their personal behaviour affects team functioning.
qualities which enhance the work of the team. and is able to negotiate and manage conflict in order to improve effective team working.	The student uses a range of skills to effectively teach, coach and support junior members of the team.		The student does not demonstrate the ability to support junior team members effectively.
The student uses a range of innovative and creative skills to effectively teach, coach and support junior members of the team.			

Progression Plan

A progression plan is required when there is a need to address the student's progress or performance. The Practice Assessor must inform the Nominated Person and Academic Assessor when an action plan is required/generated. The **SMART** principles should be used to construct the plan.

Placement area:	meeting:	(T imed)
What is the issue? Refer to proficiency or Professional value (Specific), state the reason for concern and/or why proficiency has not been achieved.	Ensure an appropriate level	for achievement? (Measurable) of expectation – refer to the 's academic and professional level

About me

This section of the MORA is designed for you to document any information that you feel would be helpful to share with those who support your practice learning. You can update it during the programme to reflect your ongoing personal development and any changing practice learning requirements.

My transferable skills
As you begin your midwifery education, you may like to think about how you can draw on
your previous experiences to support your clinical learning. What transferable skills have you
developed and how can you apply these to your midwifery practice?

Midwifery Ongoing Record of Achievement

How I learn best
What kind of learner are you? Different people learn in different ways and identifying some of the ways
that help you learn most effectively can help you to get the most out of your practice learning
opportunities. This section is designed to enable you to document any information which you feel would
assist practice partners to support your learning most effectively.

Reasonable adjustments for practice learning¹³

Approved Education Institutions (AEIs) together with practice learning partners must take account of students' individual needs and personal circumstances when allocating their practice learning opportunities, including making reasonable adjustments for students with disabilities. The purpose of reasonable adjustments is to prevent students with disabilities from being at a substantial disadvantage, and requires changes to be made to accommodate disability or learning differences as set out in equalities and human rights legislation (NMC Standards for pre-registration midwifery programmes 2019, p.11-12)

You are able to document any reasonable adjustments that are required to support your practice learning, if you wish to do so. It is up to you to decide whether you want to disclose any information. Before completing this section please discuss your needs with the appropriate person in the university setting who has access to your personal records where the reasonable adjustments you require will be documented. If you are not sure who to discuss this with, please ask your course leader or Lead Midwife for Education.
